INITIAL MEETING OF THE PEACE ENVOYS

First Days' Session Held At Portsmouth, N. H.

ALL BARRED FROM NAVY YARD

The First Session Lasted About One Hour—Little Business Was Done Other Than Exchanging Credentials and Arranging Program.

Portsmouth, N. H., August 10.—The day which was to bring the initial meeting of the Russian and Japanese peace plenipotentiaries at the navy yard here, opened with delightful weather conditions.

It was expected at that time that the start would be made for the navy

MINISTER TAKAHIRA.

yard, where, by agreement reached yesterday, the first sitting of the commissioners was to be held at 10 o'clock would be at half past nine. There were many people waiting on the veranda of the hotel to witness the departure of the envoys. With the approach of the hour of meeting the feeling became more pronounced than before that an armistice would not be agreed upon unless the success of the negotiations was assured.

The position of the Japanese toward this formality and the hearty support which London is understood to have given Tokio, it is believed, has operated to minimize the wish of the Russians for a signed truce.

Another cause for their willingness not to press for an armistice at the first meeting is believed to be the recent opposition said to have manifested itself among the Russian forces at the front against peace negotiations It is felt that to ask them to sign a truce might have a bad effect upon their spirits and serve to increase their opposition to the ending of the war.

Baron Komura and Mr. Takahira and Secretary Adato left the hotel Wentworth by automobile for the navy yard at 9:55 o'clock. They were greeted on the veranda by Acting Secretary Pierce and Governor McLane. M. Witte and Baron Rosen started shortly after in another automobile, leaving by a secondary entrance which leads to their apartments.

It took about half an hour to cover the six miles from the hotel to the navy yard, and it was 10:30 o'clock when the envoys arrived at the naval stores building where their sitting was to take place. The foreigners attracted no particular attention as they passed through the city today. At the navy yard he careful arrangements made by Rear Admiral Meade, the commandant, for excluding all persons not connected with the proceedings, operated perfectly every outsider being stopped at the entrance of the yard.

After the plenipotentiaries left the hotel for the navy yards this morning Mr. Honda, private secretary to Baron Komura, went to the apartments of the Russian mission, where he was received in the reception room by Mr. Shipoff, Mr. DePlancon, Mr. Batchoff and Mr. Berg. Mr. Honda said the object of his visit was to discuss the last program for the exchange of cards by the members of the two missions. The short conversation which followed was very cordial and it was decided that the cards should either be left at the office, one that a secretary from each side should convey them direct to the respective apartments and there be formally received.

It is noticeable that with each day the members of the two missions are fraternizing more easily, and it is no longer a subject of comment when a Russia nand a Japanese are seen talking together.

Baron Komura and M. Witte reiterated to third Assistant Secretary Pierce shortly before leaving for the navy yard today, a request that every one be excluded from the yard all throughout the time the envoys are meeting. Even the members of each mission to gain entrance will be required to show passes signed by their chief and countersigned by the commandant of the yard.

The first session of the peace conference has been concluded. It lasted about an hour. No business was done besides exchanging credentials and arranging a program for future sessions

RIOTING RESUMED IN CHICAGO.

Non-Union Teamsters Were Knocked from Wagons and Beaten.

Chicago, August 10.—Rioting by union teamsters was resumed last night when several union men who had been unable to gain their old positions as teamsters attacked five of Montgomery, Ward & Co.'s nonunion drivers.

Two deputy sheriffs who were escorting the nonunionists from Ward & Co.'s barns, were routed by the union men, who flourished revolvers and threatened the deputies with bodily injury. Two of the nonunion teamsters who were knocked down and beaten with clubs fired a dozen or more shots at their assailants and the latter fled.

A riot call was sent in and in a few minutes afterward the rioters had disappeared, Inspector Shippy with 20 policemen drove to the stables in the patrols and ambulance. A search was made by the police but they could not find the sluggers. The men beaten by the strikers are Simon Block and Jerry Williams. Both were badly bruised about their heads. Several of their companions were less severely bruised when they went to the assistance of Blocks and Williams.

AMERICAN CONCESSIONS SAFE.

Morgan Does Not Care to Dispose of Chinese Franchise.

New York, August 10.—The uncertainty concerning the future control of the Hankow and Canton railroad and the concession for other construction now owned by the China-American Development company, were set at rest yesterday by the positive statement made in well informed quarters, according to the Herald, that J. P. Morgan & Co., are continuing their negotiation for the sale of the property and concessions to the Chinese.

It was learned further that the offers for the control of the China-American Development company, made by various European syndicates, are not being considered by the Morgan firm. From a financial point of view, several of these offers are understood to have been very tempting. If the attitude of the various Chinese governments had been different, the Herald continues, and more in harmony with the spirit in which the concessions were granted it might have been possible to sell the control to European bidders.

At the present time, however, the negotiations for the sale of the property have become closely intertwined with diplomacy.

Homesteaders Seek Lands.

Salt Lake, Utah, August 10.—Renewed activity is observed in the registration of applicants for lands on the Uintah reservations. At all points in Utah where registrations are being made the number of applicants increases daily. At Provo, the total number registered to date of 9,834; at Vernal, 4,494; at Price, 1,035. It has developed that the area withdrawn from entry by the government is 200,000 acres, instead of 50,000 acres, as at first reported.

CITY WILL RECEIVE THOROUGH CLEANING

Officials In New Orleans Working to That End.

8 DEATHS AND 12 NEW CASES

The Most Drastic Measures Are Being Used to Put the Crescent City in Excellent Sanitary Condition—Other Yellow Fever News.

New Orleans, August 10.—Twelve new cases of yellow fever and three deaths reported by board of health.

Street Cleaning Campaign Started.

New Orleans, August 10.—A great street cleaning campaign was inaugurated here early today and will continue until nightfall. Besides the paid laborers of the city and the prisoners from the jails and houses of detention, thousands of volunteers took off their coats and rolled up their sleeves and went to work to give New Orleans a thorough scrubbing. Hundreds of carts and wagons were employed in carrying off the refuse.

The state board of health was in receipt of advice sfrom a number of parishes today notifying it of their disposition to modify quarantine regulations. A number of boards have conferred at Lafayette and decided not to interefere with the movement of passengers from non-infected points who have health certificates and from infected points if they have served time in detention camps and been released by the marine hospital service.

Restrictions were taken off of freight provided it is shipped in fumigated cars.

Full confidence has been expressed in the marine hospital service. Additional appeals have come from the smaller towns for relief so that they may obtain food supplies and ice.

Gueydan, La., and Logansport, La., are among the towns thus complaining. The latter is on the Texas border, and because of the Texas quarantine has not had a train for seven days. Its supplies are nearly exhausted.

Eaton Rouge is guarding against possible infection by the erection of an isolation hospital. Work on it has been rushed and it will be ready the moment a case is reported in that vicinity.

Alexandria, La., having lessened the severity of her regulations, has been able to receive 20 pouches of delayed mail, but is still anxious to secure outside newspapers describing the fever situation.

Governor Blanchard has received an appeal for assistance from Bon Ami, La., where there have been two cases. One has died and the other is moribund. There are 1,200 people in the settlement and only one doctor. Nurses and doctors are desired. The governor is doing all in his power to relieve the situation.

Foreign Immigration Stopped.

All foreign immigration into New Orleans is to be stopped until after the fever is stamped out. Large numbers of Italian immigrants were expected here in September and October, but as the bringing in of thousands of unacclimated persons would simply add fresh material for the fever, the immigration bureau will arrange for the diversion of the ships to other ports unless by that time there is no longer a trace of the disease here.

No Marked Changed.

No marked change in the fever situation today though an early morning report of three deaths and eleven cases indicated the energy with which the Marine hospital service inspectors are now at work in ferreting out the sick. The surgeons ordered here by surgeon general Wyman to assist Dr White are beginning to arrive. Drs. Rupert Blue, E. M. Stegar and F. C. Smith were among those who reported today. They will be at once assigned to districts.

Though the report of sixty cases in the preceding 24 hours was the largest number in a day since the fever was officially announced, the disease continues principally confined to the section below Canal street. Of the sixty cases fifty-three are in the second and third districts, which are in that territory. More American and French names are in the list than formerly.

Inspectors of the health authorities are experiencing some refusals on the part of families to agree to the screening of rooms where there are sick patients. If there is persistency in this refusal, it is expected that orders will be issued to quarantine such houses permitting no one to come in or go out. It is believed that with such an alternative offered them, none will put obstacles in the way of scientific treatment of the fever.

Suspicious Cases in Mississippi.

Jackson, Miss., August 10.—The state board of health announced this morning that suspicious fever cases are being investigate dat Holly Springs and Yazoo City. The supposed infection at the two places has not yet reached the stage of development where positive announcement can be made, but definite diagnosis is expected late this evening.

FIVE NEW COUNTIES NAMED.

House Reconsiders Vote of Tax on Liquor Dealers.

Atlanta, August 10.—A practical agreement has been reached on the new counties, the creation of which will be recommended by the committees which have had the question of new counties under consideration for several weeks past.

According to this agreement it is understood that five new counties are to be recommended by the house committee either Wednesday or Thursday There is a possibility that six will be named in this report.

The six successful competitors for new county honors in the order selected according to an authoritative source of information, are as follows:

Jenkins county, to be formed from parts of Burke, Bulloch, Screven and Emanuel, with Millen as the county seat.

Tift county, to be formed from parts of Berrien, Worth and Irwin, with Tifton as the county seat.

Toombs county, to be formed from parts of Montgomery and Tattnall, with Lyons as the county seat.

Bleckley county, to be formed from parts of Habersham and Franklin, with Toccoa as the county seat.

Cromartie county, to be created from parts of Appling and Coffee, with Hazlehurt, as the county seat.

In case it is decided to name six counties instead of five this year, it is practically determined that Grady county will be chosen.

Grady county is to be established from parts of Thomas and Decatur, with Cairo as the county seat.

House Reconsiders Vote.

It was carried by too close a vote to hold, and the house Tuesday reconsidered its action in fixing the tax on liquor dealers and dispensaries at $1,000, killed the amendment calling for that amount, and by a vote of 94 to 69 adopted another one making the tax $500, which is an increase of $200 over the present amount.

The $500 tax has yet to run the gauntlet of the senate before it can become enacted into law, and there appears to be a belief in some quarters that the senate will insist on reducing it.

It is not thought that the tax of $500 would result in closing up a dozen bar rooms in the state, and if such should be the case, the increased tax would more than double the state's present revenue from the liquor traffic, making it something close to $400,000.

Engineer Dies at Throttle.

Macon, Ga., August 10.—Eugene Guilfoyle, an engineer on the Central railroad, fell from his post of duty on his engine to the foot of the cab, dead Tuesday afternoon as the train neared Montezuma, bound for Macon. He evidently had sudden warning, for he applied the brakes before he relinquished his hold on the lever. Life was extinct when his fireman came to his assistance and stopped the train. He was in charge of a heavy freight. Congestion of the brain is supposed to have been the cause of his sudden death.

THIRTEEN BODIES HAVE BEEN FOUND

It Is Believed That Many More Are In the Ruins.

50 WOMEN UNACCOUNTED FOR

Work on Clearing Away Debris of the Collapsed Building Goes on With Rapidity—Corpses Taken from Building Greatly Disfigured.

Albany, N. Y., August 10.—Thirteen dead bodies, many of them burned almost beyond recognition, have been taken from the ruins of the department store of the John G. Myers company, which collapsed yesterday.

The known death list within a few hours of night numbered only five. It has since more than doubled.

In addition to these it is almost certain that 15 or 20 bodies still remain in the twisted mass of iron, steel, plaster, brick and lath that was once the main portion of one of the city's largest stores.

A day's work by skilled hands from the wrecking crew of the New York Central and the Delaware and Hudson railroads, has resulted in removing barely half of the wreckage.

The injured in the hospitals are doing well, with two exceptions. Miss Ella J. Donahue, who was one of the first survivors to be taken out of the wreck, has several of her vertebrae fractured, and it is said that Mrs. William Borst, of Windsor, Mass., who was one of the few shoppers injured, is also reported to be in a critical condition.

It is thought scarcely possible that any of those now imprisoned in the debris can be alive.

Since midnight only [illegible] corpses have ben taken out. Fifty-seven men employes are still unaccounted for, and as the firm has a complete list of these, grave fears are entertained for the safety of the majority. A large percentage of those in the central portion of the building when it collapsed were women.

The thirteenth body was found this afternoon and identified as that of Miss Winifred Kelly, by her father who had watched by the wreckage all night.

A thorough search carried on since early morning has revealed the fact that all the men and all but one of the women employed in the department store of the John G. Myers company, which collapsed yesterday, are accounted for.

About 30 cash boys out of [illegible] not yet reported, but it is thought it scarcely possible that there are many of them in the ruins for the proportion of boys thus far known to be killed and injured is small.

These facts lead to the belief that the number of deaths will prove considerably less than was feared. The dead found thus far number [illegible] there is hope that not more than a dozen bodies are still in the wreck.

FOOLED THE PEOPLE.

Organ Agent in North Gainesville Worked a Slick Game.

Abraham Lincoln is credited as saying: "You can fool all the people some of the time, some of the people all the time, but you can't fool all the people all the time."

If Abe was living in North Gainesville now, he might retract this statement, for it is said that a shrewd fellow has fooled all the people for all the time.

This fellow visited the various homes in North Gainesville canvassing for the sale of organs, and promised each purchaser that he would give lessons free of charge. He managed to dispose of several instruments, collected the money, and, like the Arab we read about, quietly folded his tent and "hiked off."

The people who purchased organs have the instruments, the man has the money, but if they want to learn to perform upon this melodious instrument they must go to the additional expense of a teacher.

THE BOND TRUSTEES.

City Council Names Trustees for Two Important Funds.

The City Council, having passed the educational and sewerage, lighting and street bond ordinances, have elected trustees of these funds as follows:

For educational bond fund—E. Baird, J. S. Bodiford and Christopher Matheson, all for one year.

For sewerage, lighting and streets—W. W. Hampton, five years; H. F. Dutton, four years; S. J. Thomas, three years; W. N. Wilson, two years; Perry M. Colson, one year.

These trustees will have charge of all the funds derived for the purposes specified, which will be an assurance that same will be properly handled, as each is a conservative agent. In the hands of these boards the people may feel assured that the funds will be properly and judiciously expended.

THE YELLOW FEVER.

The New Cases Seem to be Gaining in New Orleans.

New Orleans, August 10.—Up to noon today there were 20 new cases, and the fever seems to be spreading. Many new cases are found among the Italians every day, which they have tried to keep secret. The death of Archbishop Chapelle, which occurred Wednesday, has caused universal sorrow.

Jackson, Miss., Aug. 10.—The surgeon-general of the State has been called to Yazoo City to investigate two suspicious cases.

Rheumatism.

When pains or irritation exist on any part of the body, the application of Ballard's Snow Liniment gives prompt relief. E. W. Sullivan, proprietor Sullivan House, El Reno, O. It is the only remedy I have found that gives immediate relief." 25c, 50c and $1. Sold by W. M. Johnson.

ISLAND GROVE.

Revival Meetings—Wild Goose Chase. Local and Personal Items.

Island Grove, Aug. 10.—We are having an abundance of rain now, so much that it is bothering the farmers somewhat in gathering their crops, but we are never satisfied—some time ago we were crying for rain.

Rev. John Thompson of LaCrosse is visiting his wife at this place.

Mrs. Kirkland, who has been visiting her parents, Mr. and Mrs. S. V. Cassels of this place, has returned to her home at Tampa.

Mrs. Ruth Moore, who has been visiting relatives here, has gone to Starke to meet her husband.

W. J. Evans has returned from Gainesville, where he went on a visit to his brother, who is attending the Normal at that place.

The Baptists at this place have recently closed a successful protracted meeting. During the meeting thirty-one new members were added. The pastor, Rev. York, was assisted in this great work by Rev. Thompson of LaCrosse. The church has had a mighty awakening and we hope that the interest now manifest will continue. The young men of the church have organized a young mens' prayer-meeting and much interest is being manifested.

Mr. and Mrs. W. A. Brice entertained a number of their young friends at their hospitable home Tuesday evening by tendering to them a "Wild Goose Chase." Although the weather was very inclement, a majority of the invited guests present were all anxious to know what the chase would be like. The happy winner of the race was Miss Lee Cassels, who captured, not a goose, but a large, beautiful bouquet of roses. Two suppers were served during the evening—one a "silent supper," which was a sell—but the next was a real supper. When the dining-room door opened and the guests were invited in, every eye brightened at the pleasing sight, for the table was prettily arranged and delightful refreshments were served. Mr. and Mrs. Brice are to be congratulated upon their success as entertainers, as every young person present expressed themselves as having had a royal good time.

LITTLE POSSIBILITY OF VERDICT

Jury in Sanford Case Has Been Out Over Six Days.

Rome, Ga., August 10—After having been out for six days there seems to be little possibility of the jury reaching a verdict in the Sanford case. There have been no new developments today and the jury is still out by the decision of Judge Wright, who last night ordered the jury back after it had notified the court that it could not not agree on a verdict.

Judge Wright has stated that he would keep the jury together at least during the day and that he might keep the jurors together longer. It is stated that the court has not fully made up his mind in regard to when he would declare a mistrial in the case.

The many rumors in regard to the possible finding of the jury have narrowed down now to the opinion that a verdict of manslaughter will probably be returned, if any verdict is reached. It is understood that two of the jurors favor a verdict of acquittal, and that the delay in reaching a decision has been caused by the holding out of the jurors who favor granting Sanford his liberty.

Georgia Bigamist Arrested.

Mobile, Ala., August 10.—John R. Haynes, the young white man arrested here several days ago as a fugitive from justice, was taken to Atlanta today by Deputy Sheriff N. A. Maud Moore, the 17 year old girl who claims to have married Haynes in December last at Atlanta and who was with him when arrested in this city, is being cared for by Sheriff Powers. She is expected to be returned to her mother in Atlanta, Ga.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good, and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Large Increase in Tax Returns.

Atlanta, August 10.—Forty million dollars, that is the figure now set by Captain W. H. Harrison for the probable aggregate gains in tax returns in the 137 counties of the state of Georgia. Up to Wednesday the digests of 118 counties had been received, showing net gains aggregating $32,555,890 or over $7,000,000 in excess of what was at first estimated as the total gains for the whole state.

Another Good Man Gone Wrong.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was soon a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Denver Bank Closes Its Doors.

HAIR TELLS CHARACTER.

Color of Hair Said to Indicate a Person's Temperament.

Many people believe that blonde, or light hair denotes affection and dark hair constancy. A person without hair is not devoid of character; far from it. The disposition of the average bald-headed man is to show such solicitude for the welfare of others, that he neglects himself. A germ causes baldness. Prof. Sabouraud, of Paris, France, inoculated a rabbit with Dandruff germs, causing it to become totally bald in five weeks' time. To rid the scalp of these dangerous germs it is necessary to apply Newbro's Herpicide.

THE COTTON CROP WILL BE DAMAGED

Caterpillars and Rain Have Combined to Dishearten Growers.

THE PLANT OPENING RAPIDLY

One Hundred Bales it is Estimated Are Open in the Hawthorn Section, but Rain Has Prevented Gathering—Reports from Other Sections.

The presence of caterpillars in the cotton crop in various sections of the county is causing consternation on the part of the growers. This has added to the recent heavy rains, and that cotton which has opened within the past few days has been badly damaged by the rain.

F. M. Ramsey of Wacahoota, one of the most extensive growers of cotton in that section, states that the caterpillars have almost taken possession of his crop, but he purchased a quantity of paris green and hopes to exterminate the insects by a liberal application of this poison, which is sure death. Mr. Ramsey states that other planters in his section are being damaged by the caterpillar, and if this pest is not destroyed the crop will fall nearly fifty per cent short of the original estimate. The worm made its appearance about two weeks ago, when the cotton was well on to opening, and in this short time has played havoc with the staple.

A prominent grower of the Hawthorn district who was in the city Thursday stated that the crop in his section had been considerably damaged by the rain. There were few caterpillars, but the rains had caused a great loss and the crop will be short if dry weather does not come. He stated that fully one hundred bales of cotton are now open in the fields and damaged so badly that but little of it will be saved. Cotton is opening in that section rapidly, and by the middle of the coming week, if weather conditions are favorable, the gins will be active.

Reports of damage by caterpillars and rains also come from other sections of the county.

NAVAL STORES DEAL.

Venable & Jones Have Purchased the Wolfenden Turpentine Farm.

Venable & Jones, the naval stores operators and lumber manufacturers, who have been engaged in business at Kanapaha for several years, are branching out, or in other words, extending their business. This energetic firm has just closed a deal for the turpentine farm of Wolfenden & Co., Sampson City, which is one of the best and most profitable in this section. While not as large as many, the yield has been good, and in proportion to the number of crops it may be safely said that this plant is one of the best paying in this section.

Several months ago T. J. Swearingen, who desired to engage in the naval stores and milling business, purchased the interest of Mr. Jones at Kanapaha and the firm at that point has since been Venable & Swearingen. However, Mr. Jones is a very active man and was not content to be idle, hence the purchase of the Sampson City property.

The new owners have already taken possession and the affairs of the business will be managed by Mr. Jones, who is thoroughly conversant with the naval stores business.

The Godwin Sale.

Sheriff L. W. Fennell and Attorney Jos. M. Jones conducted the sale of the estate of J. J. Godwin, deceased, at Ft. Wednesday. The sale was a private one, and comprised the saw mill and lumber, with other appurtenances, property of the deceased.

The saw mill, as well as the stock of lumber on hand, was purchased by J. A. Mahaffey of Campville. The price paid for the former was $2,100, and the lumber on hand, $95. The capacity of the mill is about 5,000 feet per day, but the plant is a modern one.

A WOMAN'S ORDEAL

DREADS DOCTOR'S QUESTIONS

Thousands Write to Mrs. Pinkham, Lynn, Mass., and Receive Valuable Advice Absolutely Confidential and Free

There can be no more terrible ordeal to a delicate, sensitive, refined woman than to be obliged to answer certain questions in regard to her private ills, even when those questions are asked by her family physician, and many

Mrs. T. C. Willadsen

continue to suffer rather than submit to examinations which so many physicians propose in order to intelligently treat the disease; and this is the reason why so many physicians fail to cure female disease.

This is also the reason why thousands upon thousands of women are corresponding with Mrs. Pinkham, at Lynn, Mass. To her they can confide every detail of their illness, and from her great knowledge, obtained from years of experience in treating female ills, Mrs. Pinkham can advise women more wisely than the local physician.

Read how Mrs. Pinkham helped Mrs. T. C. Willadsen, of Manning, Ia. She writes:

Dear Mrs. Pinkham:—

"I can truly say that you have saved my life, and I cannot express my gratitude in words. Before I wrote to you telling you how I felt, I had doctored for over two years steady, and spent lots of money in medicines besides, but it all failed to do me any good. I had female trouble and would daily have fainting spells, backache, bearing-down pains, and my monthly periods were very irregular and finally ceased. I wrote to you for your advice and received a letter full of instructions just what to do, and also commenced to take Lydia E. Pinkham's Vegetable Compound, and I have been restored to perfect health. Had it not been for you I would have been in my grave to-day."

Mountains of proof establish the fact that no medicine in the world equals Lydia E. Pinkham's Vegetable Compound for restoring women's health.

Speedy Trial for Negro.

Asheville N. C., August 10.—All records for speedy trials were broken here when Ab Dougherty, a negro, was sentenced to the pen for 18 years within 24 hours after killing Mose Williams, also a negro, of which crime he was convicted. The homicide occurred near this city late Monday afternoon. The coroner's inquest was held the same evening and at 3 o'clock in the morning the coroner's jury returned its verdict implicating Dougherty. He was already under arrest and was brought to this city and tried in the superior court this afternoon the grand jury having found a true bill this morning. The man pleaded guilty of manslaughter and was sentenced immediately.

Oil Fired by Lightning.

Houston, Tex., Aug. 10.—Fire started at Humble and did damage estimated at between $300,000 and $400,000. Lightning struck two tanks belonging to the Guffey company and both of them were set on fire. The oil in these tanks amounted to about 100,000 barrels and all of this was lost. In addition a number of small settling tanks were burned, entailing a further loss of 20,000 barrels. The burning oil spread to the field, where a number of wells were enveloped by the fire. About a dozen derricks with machinery were burned. A number of air plants used in raising the oil and a lot of machinery was destroyed. So far as can be learned there was no insurance.

Man Cut Woman's Throat.

Chattanooga, Tenn., August 10.—Scores of men and boys of Rossville, Ga., about 6 miles from Chattanooga, are searching the woods near their town for the body of a woman named Sara Jackson, who is supposed to have been killed yesterday afternoon by a man named Charley Carr. When last seen the woman was running into a dense thicket with her throat cut and blood pouring over her body. Carr is chained to the wall of a primitive calaboose at Rossville, and men with shotguns are guarding him. The affair is veiled in mystery. Both Carr and Miss Jackson are said to be from Dalton, Ga.

THE LAW OF FINDING

Against All Save the Owner the Finder's Title Is Perfect.

In common law finding is a qualified source of title to goods and chattels. Briefly, the law is that the finder has a clear title against all the world, excepting the owner. The proprietor of a coach or a railroad car or a ship has no right to claim as property found on his premises. Such proprietors may make, in regard to lost articles, regulations which will bind their employees, but they cannot bind the public.

The law of finding was declared by the king's bench more than a hundred years ago when it was the supreme court of common law in England, as follows:

A person found a wallet containing a sum of money on a shop floor. He handed the wallet and contents to the shopkeeper to be returned to the owner. After three years, during which the owner did not call for his property, the finder demanded of the shopkeeper the wallet and the money. The latter refused to deliver them upon the ground that they were found on his premises. The finder then sued the shopkeeper and it was held, as stated above, that against all the world save the owner, the title of the finder is perfect. The finder has indeed been held to stand in the place of the owner. Thus A prevailed in an action against B, who found an article which A had originally found, but subsequently lost. The police have no especial rights in regard to articles lost unless these rights are conferred by statute. Receivers of articles found are trustees for the owner or finder. In the absence of special statute they have no power to keep an article against the finder any more than a finder has to retain an article against the owner.

A finder must, however, use every reasonable means to discover the owner of found goods before appropriating them to his own use. It has been declared that if the finder knows the owner or knows that he can discover him he is guilty of larceny in keeping or appropriating to himself the articles found.

A Touching Story

Is the saving from death of the baby girl of Geo. A. Eyler, Cumberland, Md. He writes: "At the age of 11 months, our little girl was in declining health, with serious throat trouble, and two physicians gave her up. We were almost in despair, when we resolved to try Dr. King's New Discovery for consumption, coughs and colds. The first bottle gave relief; after taking four bottles she was cured, and is now in perfect health." Never fails to relieve and cure a cough or cold. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

Passport to the North Pole.

A passport to the north pole was issued some years ago by the governor of the province of Toboisk, which stretches along the Russian shores of the Arctic ocean. The official was approached by two men who had been engaged to proceed to the north with an English expedition, then fitting out. Their petition was for a passport to the pole itself, but the governor pointed out that the pole was as likely to be in their home province as in any other, that it was extremely unlikely they would reach it and that, if they did, there were no police there to examine their credentials. At last, however, to satisfy them he ordered the issue of a document allowing them to pass without let or hindrance to the north pole.

Cures Sciatica.

Rev. W. L. Riley, L. L. D., Cuba, New York, writes: "After fifteen days of excruciating pain from sciatic rheumatism, under various treatments, I was induced to try Ballard's Snow Liniment; the first application giving my first relief and the second entire relief. I can give it unqualified recommendation." 25c, 50c, $1.00. Sold by W. M. Jonnson.

Chair of the Giant Idris.

One of the mountain peaks of north Wales is known as the Chair of Idris, or Cader Idris, as the Welsh people call it, because its top is hollowed out like an immense couch. According to local tradition, whoever spends a night in the Chair of Idris will on the following morning be dead, raving mad or endowed with the loftiest poetical inspiration. No one seems to know exactly who Idris was or when he lived, but he must have been a giant if his body was in proportion with his celebrated "chair." Mrs. Hemans has a fine poem with the Chair of Idris as the theme, and Tennyson also mentions it in "Enid."

SERMON REPORTERS.

In English Churches They Are Only Admitted on Sufferance.

Some one who evidently speaks from knowledge writes in the Homiletic Review of "The Experiences of a Sermon Reporter." His remarks on the different rules in English and American newspapers on sermon reporting and his statement that it is necessary to verify Scriptural texts are not without interest. Possibly there is a text for a sermon not preached by the preachers in the following paragraph:

Reporters are invariably welcomed to American churches, for American preachers seem fully alive to the value of the advertisement obtained through newspaper notices. Some preachers even maintain their own "press agent" in order to secure the utmost publicity for the occasionally brilliant and it may be, eccentric statements which they deliver. In English churches the reporter is only admitted on sufferance. Under an ancient law, which has never been repealed, the taking of shorthand notes of sermons is a misdemeanor characterized as "brawling" and punishable by imprisonment. In few American churches special desks are available for reporters. They are, in any case, treated with the courtesy by the ushers and provided with seats immediately below the pulpit. On a rare occasion in a provincial church a reporter has been allowed a seat himself on the pulpit steps, and on one extraordinary occasion it is recorded that a stenographer was concealed within the pulpit itself.

RABBITS AS FOOD.

Be Sure They Are Young and Then Cook Them With Onions.

Conies, the parent rabbits, were long considered as indigestible, provocative of melancholy—a black meat, breeding nightmares—but young rabbits have long been approved by thoughtful eaters. They were once eaten very young, and Topsell protested quaintly against the practice of cutting them out of the mother: "I trust there is no man among Christians so inhumanely glutonous as once to devise or approve the sweetness of so foul a dish." Tame conies are not so good as the wild ones, for every creature doth partake in taste of the air wherein he liveth, and the air of the rabbit warren is not favorable.

The hare was praised extravagantly by Horace and Martial, and Apicius gave many recipes for dressing it, but the rabbit was not much esteemed among the Greeks and Romans. To-day there are many ways of cooking the latter—brown or white fricassee, young rabbit in curl papers, croquettes, fillets, gelatin, gratin, rabbit pie, pudding, soup, scallops, mince of rabbit au fumet, rabbits a la venitienne white gibelots, turban of fillets, kickshaws with Italian sauce, and, best of all—how the savor arises as we write—rabbits and onions. But the rabbits must be young—those whom the gods love eat them young.—Boston Herald.

A DOG IS ALWAYS HONEST.

He Can't Growl and Wag His Tail at the Same Time.

"There is one peculiar thing about dogs," remarked a well known local fancier and huntsman, and that is you never saw one pant and wag his tail at the same time. A dog is not capable of a double emotion. He can't growl and wag his tail at the same time, for it is impossible for him to be mad at one end and glad at the other.

"If a dog is glad to see his master he will bark and wag his tail. If he wants to get into the house he will paw at the door, whine and wag his tail, but they are all symptoms of one and the same emotion. But if his master opens the door he will cease to show anxiety immediately by whining and will show pleasure only by the wagging of his tail.

"In order to get a man's temper one must watch his eyes, but for a dog's you have to watch his tail. The dog is likewise incapable of deceit, and hence he is nothing of a politician. He deceives no one, not even his master. If he is overjoyed every [illegible] dicative of that fact, and his whole makeup gives ample testimony to it. If he is displeased or angered it is the same way."—Houston Post.

A Double Presentation.

John Kendrick Bangs once received a gift copy of one of his books in a secondhand bookshop, with the inscription on the fly leaf: "To my friend, J. G., with the regards and esteem of J. K. Bangs." Mr. Bangs bought the book and sent it to his friend again with a second inscription beneath, "This book, found in a secondhand bookshop, is presented to J. G. with the reiterated regards and esteem of J. K. Bangs, December, 18[illegible]."

CERTIFICATES NEEDED.

Many people from this State who are visiting in the North and West, who expect to return home during the quarantine, or those who are going away out of the State for a visit, should secure a certificate to identify them and give an account of themselves. A form of identification similar to the following blank is suggested:

"This is to certify that———personally appeared before me at——— Florida, on this — day of — 1905, apparently in good health, and affixed thereto his signature for purposes of identification, and has to my knowledge been in this———for———days

"Signature of———

"———notary or other officer. (Impression seal).

Holders of certificates as above can at every stopping point along the line of travel request the local railroad ticket agents or postmasters to stamp their certificates, showing their whereabouts by dates, and can also easily identify themselves by writing their signatures in the presence of, and for comparison with signatures in certificates by the inspectors, wherever and whenever encountered, inside or outside of Florida.

LOOKS LIKE WAR.

The Sun had hoped that after a few days of rest and recuperation the people of Lake City might get back to their normal condition, but the following from The Suwannee Democrat looks like trouble was brewing:

"Lake City must have something hid up her sleeve, as almost every prominent person we talk with from there seems to think the University will not be moved, the Board of Control, to the contrary, notwithstanding. As matters now stand the University remains where it is for another year, then it will be time to elect another Legislature, and in the interim injunctions may be secured to prevent the construction of necessary buildings in Gainesville, and when the next Legislature meets the Buckman bill and the Board of Control will be knocked into a cocked hat. We heard one man who owns considerable property in Lake City say that $50,000 would be expended by the city in preventing the removal of the University. There is evidently a war shead."

THE WORD STAPLE.

How It Came to Be Applied to Articles of Commerce.

The word "staple," applied as an adjective to distinguish certain articles of commerce, had its origin in England in the early part of the thirteenth century. The merchants of the staple were the first and most important and were so called from their exporting the staple wares of the kingdom—raw wool, leather, skins, lead and tin. The king's staple was established in certain towns, and certain goods could not be exported without being first brought to those towns and rated and charged with the duty payable to the king. The grower of wool contented himself with the sale of it at the town dock or at the next town. There arose a class of men who bought it from him and became a medium between the grower and the foreign merchants. In 1319 the company had the legal form of a corporation and was the oldest mercantile corporation in England. Edward II had for the better collecting of duty on wool ordained that the staple for it should be a certain town in the Netherlands and Antwerp was fixed upon. It was afterward successively removed to St. Omer's, Bruges, Brussels, Louvain, Mecklin and Calais. In 1353 the staple was fixed at Westminster, which caused so great a resort of traders that from a village it was raised to the dignity of a town. In 1378 it was removed to the place still named Staple inn, in Holborn. Hence "staple goods" are such as have been duly appraised and have paid the regular customs duties.

MILLET'S INFLUENCE

A Host of Painters Followed Him in Depicting Peasant Life.

In his own words Millet tried to depict "the fundamental side of men and things." His subject was the peasant life—not the representation of it such as one sees in opera or the pretty sentimental aspect of it, but the actual drama of labor continuously proceeding through the four seasons, the "cry of the soul," echoing in the hearts of the patient, plodding, God fearing toilers. Everything was typical. We have spoken of his "Sower." Of another picture the critic Castagnary wrote: "Do you remember his 'Reaper?' He might have reaped the whole earth."

Everything that Millet did was full of a deep seriousness and sincerity. He never was an "easy" painter, so that his greatness as an artist is perhaps more clear in the black and white than in the colored subjects. Certainly in his crayon drawings, lithographs and etchings he proved himself to be one of that limited number of artists who may be reckoned master draftsmen. Moreover, the character that he expresses is of that grand and elemental quality which sometimes reminds us of Michael Angelo.

Millet's influence produced a host of painters of the peasant, among whom the strongest are the Frenchman L'Hermitte and Israels, the Dutchman. These, like him, have represented their subject with sympathy and with understanding also.—St. Nicholas.

The British Speaker.

Not only does the speaker of the house of commons enjoy the material benefits of a lordly residence at Westminster palace, a salary of £5,000 a year, £100 a year for stationery and two hogsheads of claret and 2,000 ounces of plate on election, but he enjoys the less substantial advantage of taking precedence of all other commoners. By an act of 1698 it was provided that the lords commissioners of the great seal not being peers shall have and take place next after the peers of the realm and the speaker of the house of commons.—London Chronicle.

An Eye Test.

Most people believe that they see the same with both eyes. That this is not the case one can easily convince himself by the following simple experiment: Cover one of the eyes with a hand or a bandage and let the experimenter attempt to snuff out a candle suddenly placed within a few feet of him. He will almost invariably miss the flame, either overreaching or putting the fingers too far to the right or left of the flame with both eyes normal and open the accommodation for distance and direction is instantaneous.

Resting the Heart.

"Rest your heart now and then during the day," said an instructor in gymnastics.

"But the heart can't be rested," a pupil objected. "It works [illegible] from birth to death."

"It rests the heart to [illegible]," said the instructor. "Every [illegible] nine hours saves the heart the labor of 32,000 ounces of blood. [illegible] rest there, eh?

"When we lie down [illegible] heart's action becomes slower by ten strokes a minute. This in an hour 600 strokes are saved and in nine hours 5,400 strokes. Each stroke pumps six ounces of blood, and therefore in nine hours the heart [illegible]

AN IMPORTANT DEAL.

P. H. Baker Buys Twenty-Eight Acres of Land in Southwest Gainesville.

Another important real estate deal has been made in this city, P. H. Baker, the naval stores operator, having purchased through J. W. Patton as agent a tract of twenty-eight acres of land in Southwest Gainesville, in close proximity to the University grounds. This land is high and most desirable for building purposes. The new owner proposes to divide the property into one hundred and fourteen building lots and will place same on the market within the next few weeks.

Mr. Baker, who is engaged in the manufacture of naval stores in the East End, is an enterprising man. About a year ago he realized that Gainesville was the proper place in which to rear his family and educate his children, with the result that he purchased a home and other property in East Gainesville. He made extensive improvements upon his home, which is now one of the neatest and most comfortable in the city, and his confidence has grown with the city, for he has constantly added to his property possessions. About a month ago he purchased several lots in East Gainesville and at the present rate it will not be a long while before he may be classed among the leading property holders of the city.

J. A. J. Montgomery, Puxico, Wayne county, Mo., writes: "I have little twin girls, who have been bothered with worms all their lives. It is an excellent medicine." White's Cream Vermifuge is good for children. It not only destroys worms—it helps the child to perfect growth, wards off sickness. Sold by W. M. Johnson.

Something SUN Readers Shoud Consider

Read the Following Details Carefully:

The Mystery Surrounding the Beautiful Display in G. W. HYDE'S Window Revealed in the following:

A number of our enterprising merchants have arranged what will prove to be a most interesting contest between the High School, Twentieth Century Club, Odd Fellows' Home, B. P. O. Elks, Volunteer Firemen, Masons, W. O. W., K. of P., Gainesville Guards, Kirby Smith Chapter or J. J. Finley Chapter of the U. D. C., or any church, Sunday school, hospital organization or institution you would wish to own the beautiful library valued at $500, now on display at G. W. Hyde's.

THE REWARD will be a magnificent library, consisting of 200 volumes of the standard subscription publications of the day as follows: The Great Chas. Dudley Warner "Library of the World's Best Literature," 46 volumes; "Library of the World's Greatest Classics," 30 volumes; the Anglo-American Dictionary and Cyclopedia, 12 volumes; Library of Oratory, by Depew, 15 volumes; Works of Balzac, 36 volumes; the Library of Poets, 32 volumes; the World's Best Essays, 10 volumes; History of Our Great Commanders, 12 volumes.

Each and every one of these books are specimens of the best mechanical execution, which examination will prove.

The conditions of the contest are as follows: Any lodge, church or school, club, hospital or organization, public or private, is eligible to the contest. Votes for individuals will not be counted. With each 10 cents purchase a ticket will be given by the merchants through whose liberality these grand libraries are furnished, on which will be written the amount of the purchase and the number of votes. The purchaser will write on the ticket the institution or organization for which he or she desires to vote, sign their name and deposit the ticket in the ballot box in the store in which the purchase is made.

The standing of the contestants will be published exclusively in each Sunday's issue of The Sun until October 14th, 1905, at 7 o'clock p. m., when the remaining votes will be counted, and the magnificent library awarded to the organization having the largest number of votes. The Sun will publish in each issue a coupon which will entitle the holder to two votes that will be credited to the institution that is written on space provided for same when delivered to the ballot boxes in either of the stores.

ALACHUA DIVISION

...OF...

THE MUTUAL LIFE INDUSTRIAL ASSOCIATION

OF GEORGIA.

If YOU Have Not a POLICY IN THIS COMPANY, WHY NOT?

It gives protection at actual cost. Local men manage it and prevent any possibility of fraud. It is insurance at actual cost and money kept at home. Its source and origin, purpose and end, is Mutual and Co-operative Help—one thousand persons banded together to INSURE each other AT COST.

For a policy in the ALACHUA DIVISION OF THE MUTUAL LIFE ASSOCIATION of Georgia. Average cost to Policy Holders last year, $5.49 on a $1,000 policy. Forty-seven Divisions now running. $24,800,000.00 Insurance in force—now writing more than three millions of dollars a month. Only one thousand members allowed in one division and policy limited to $1,000. Open to men and women. Initiation fee payable when application is made.

At ages from 16 to 30 Class A	$3 00
At ages from 30 to 40 Class B	4 00
At ages from 40 to 50 Class C	5 00
At ages from 50 to 60 Class D	6 00

These amounts are paid only one time. One year from the date of the policy, and annually thereafter.

The annual dues are Class A	$ 75
The annual dues are Class B	1 00
The annual dues are Class C	1 25
The annual dues are Class D	1 50

Whenever a death occurs in a division, each member is called upon to pay a death premium of $1.15. According to the sworn statement of the Company made to the Comptroller General January 1st, 1905, the average cost to the policy holders of Georgia last year to carry a $1,000 policy was $5.49.

Paid beneficiaries during the year 1904, $64,000.00.

$3,321,000.00 of business written in May, 1905.

Mortuary rate last year 3 1-10 per 1,000 policy holders—year before, 3 3-10 per 1,000 policy holders.

EXPERIENCE OF A POLICY-HOLDER IN THE CLARKE COUNTY DIVISION.

This division was organized four years ago; in the whole of that time there have only been fifteen deaths in that division, which is full and consists of a thousand members, an average of 3 3-4 deaths a year. These are facts.

Let us see what has been the actual cost of a thousand dollars insurance of a member of the Clarke county division who has been in it for the last four years, and who was between the ages of forty and fifty, Class C. His initiation fee was $5.00, 15 death assessments $1.15 each, $17.25. There has been three annual dues $1.25 each, total $22.25 for four years insurance, or an average of $5.83 to carry a thousand dollars insurance for a year, between the age of forty and fifty. A member who is under that age has paid a similar amount. In an old line or stock company, at the same age, would have cost these members $48.48 per annum. Is there any sense in paying $48.48 for the same thing that you get for $5.83 and just as good, and just as safe?

What One of Georgia's Greatest Men Has to Say About the "Mutual Life of Georgia."

ATHENS, GA., March 27, 1905.

MR. JOHN A. DARWIN, Secretary and Treasurer, Athens, Ga.

Dear Sir: After making a careful study of the plan of "The Mutual Life Industrial Association of Georgia," I have taken out a policy in it and consider it the most complete solution of life insurance I have ever seen.

I have insurance in old-line and assessment companies and I have decided that "The Mutual Life" is as safe and at the same time lower in cost than any of them.

Yours very truly, HOWELL COBB.

Received through Mr. L. A. House, Secretary and Treasurer, $1,000 from "The Mutual Life of Georgia," Home Office, Athens, Ga., as beneficiary under Policy No. 4313, in the Windsor Division. This had only cost my husband $9.00 for nearly two years. The money was paid me in 24 hours after his death. I beg all women in Georgia to insist on their husbands to take a policy in the Athens Company. (MRS.) EMMA J. BAKER.

Wilmington, N. C., August 10—Alice Owens, 21 years of age, of Augusta, Ga., living in the vicinity of Eighth and Castle streets, was shot and instantly killed last night in her bedroom by Tom Lamb, a young man employed as a tinner by the Atlantic Coast Line at Florence, S. C.

Attempt to Kidnap Governor's Son.

SANTA FE, N. M., August 10.—The attempt recently to kidnap the son of Governor Otero, of New Mexico, has been defeated by the mysterious absence of the boy from the home of Mrs. W. B. Chilton, where he had been a guest. Six Mexican men rode up to the Chilton ranch on the Upper Cuse river and demanded the boy. Mrs. Chilton was alone with the servants, all of the men that young Otero was on the premises but they searched the buildings and then the entire posse has gone in pursuit of the would-be kidnapers. The fact that the members of the party were seen, but the young Otero was missing and by that way

Railroads to Adjust Rates.

New York, August 10.—A conference was held in this city yesterday between traffic managers of the trunk lines and those of the western lines running to gulf ports. Rates on sugar and coffee which have stirred up trouble between the lines serving the eastern ports and the gulf for two years were discussed and preliminary steps were taken toward making a settlement. Arrangements were made for a formal meeting to be held at Niagara Falls next Friday with this object in view. Some of the roads have been trying to maintain a differential in favor of gulf ports while the eastern lines have considered unfair and an effort will be made to reestablish the old tariffs particularly on sugar and coffee.

Wife Desertions Numerous.

New York, August 10.—Stirred by the presence in his court room of one hundred women followed by a mob of children—each woman demanding a warrant for the arrest of their husbands whom she charged with desertion and non-support, Magistrate Poole yesterday declared that wife desertion is one of the most serious menaces to domestic life that now confronts New York city. After hearing the charges, the magistrate issued 20 warrants and turned the remaining cases over to court officers for immediate investigation.
